HONORS PROGRAM is a 15 week program for men which provides an intensive group experience where men can begin or continue recovery from sexual addiction in a Christ seeking environment. It is not about quick answers or gimmicks. Workshop format and small groups create a safe context to take the path toward understanding and living out God's good idea of sexual health, purity and honor. Participants commit to 15 weeks in the form of workshops, groups, and outside reading in order to grow in understanding a biblical view of sex, the central issues of sexual addiction and their unique path out of this trap.

"Honors Program is about integrity, humility and love."

"It is a place where men who struggle with sexual brokenness can come to experience healing, connection, honesty and God's redemptive plan with other men just like them. A place where they can journey together with others toward redemption."

"Honors has helped me connect to God and to myself during this personal hell"
